

# GULLIVER

multifunctional shopping, entertainment and office complex

## A unique multifunctional complex in the center of the capital of Ukraine

The Gulliver multifunctional complex (MFC) is located in the very center of the cultural, historical and business part of the capital of Ukraine. It is one of the largest complexes in the center of Kyiv. This gives tenants a number of important competitive advantages: significant footfall, location in the business and government center of the capital, proximity to cultural and tourist locations..

Within a radius of 1.5 km from the complex are all the main government institutions of Ukraine, prestigious hotel and residential complexes, as well as the business center of the capital with large business centers. In the primary coverage area (15 minutes by public transport) are densely populated districts of the capital: Pechersky, Podilsky, Shevchenkivsky (the number of residents in the primary coverage area is up to 1 million people). The center is attractive for tourists and guests of the capital.

MFC Gulliver is located near three metro stations – Palats Sportu, Ploshcha Ukrainskih Geroiv and Klovaska – which provides a daily passenger flow of over 150 thousand people per day. Transit passenger flow along the facade of the Gulliver Sports Complex is over 50,000 people and over 35,000 cars per day. The concentration of office employees is over 35,000 people. The intensity of visitor flows remains uniform throughout the day, and is also consistently high on both weekdays and weekends.

## A smart architectural approach

Gulliver- one of the first multifunctional complexes in Ukraine, built according to the concept of an intelligent building. The complex is equipped with modern heating, ventilation and air conditioning systems. Fire safety is provided by a sprinkler fire extinguishing system from the companies Mercor (Poland) and Siron (Netherlands). Uninterrupted power supply is guaranteed by its own substation and several emergency diesel generators.

In the Tower «A» of the business center has three elevator zones equipped with the latest high-speed elevators, providing convenient and efficient movement between floors.

In atrium of the MFC Gulliver There are four panoramic elevators, organically integrated into the interior. Visitors can also use escalators to move between floors.

## Unique media facade and multimedia screens

A unique feature of the complex is its facade, which combines decorative lighting and one of the largest media screens in Ukraine and Europe.

The facade is equipped with a unique system of lighting elements for Ukraine, which turns the building into a huge dynamic media plane. The lighting equipment for the project was developed by Blachere Illumination, known for developing lighting designs for the Eiffel Tower and the Champs-Élysées.

The Gulliver media facade is one of the largest in Ukraine and Europe. It combines seven modern media screens with a total area of up to 4 thousand m<sup>2</sup>. 3D effects, live broadcasts and complex visual solutions make the media facade an expressive element of the urban space and add dynamics to the central part of Kyiv.

## The highest business center in the capital

The 33-story tower "A" of the Gulliver Business Center reaches 141 meters. The interiors use environmentally friendly materials from leading European manufacturers, and panoramic windows in the offices offer unforgettable views of Kyiv. The MFC is equipped with a three-level underground parking, which provides additional comfort for office workers and visitors of the complex.

## Unique tenant mix

Business Center is distinguished not only by its prestigious location, but also by its resident base. International companies, well-known brands, technology teams, and the largest coworking operators in Ukraine work here. This combination creates a modern business environment and strengthens the international image of Kyiv as a business capital.

## The largest coworking spaces in Ukraine

**"Creative Quarter"** - large-scale spaces for startups and IT companies, modern infrastructure.

**Creative States** - a premium network of the "office as a five-star hotel" format, which forms the image of a modern premium space, attracts international teams and investors.

**Regus** - an international operator of flexible offices, business lounges and meeting rooms.
